

Breathe Easy. Breathe Fresh

> 99% Filtration of PM2.5 Pollutants
HEPA Air Purifier with Ionizer

KJ30FE-NV

Quad-filtration

Advanced 4-stage quad-filtration protects the family from PM2.5 pollutants, formaldehyde, bacteria, viruses, allergies, smoke, odor, pollen, mold and other harmful substances.

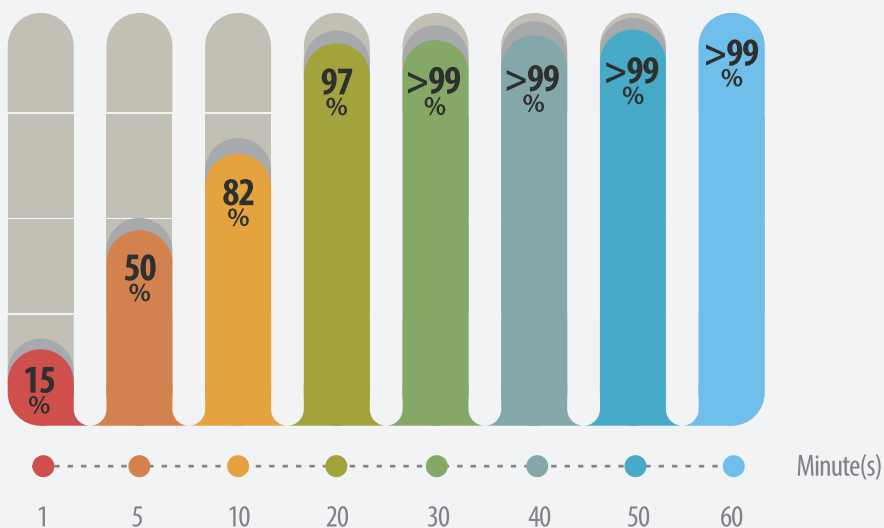

Certified by Shanghai Institute of Measurement and Testing Technology (SIMT)

For PM2.5 pollutants and Formaldehyde filtration.

Percentage of PM2.5 filtration

*Based on room size of 30m³

Test Report: 2014120-35-881014

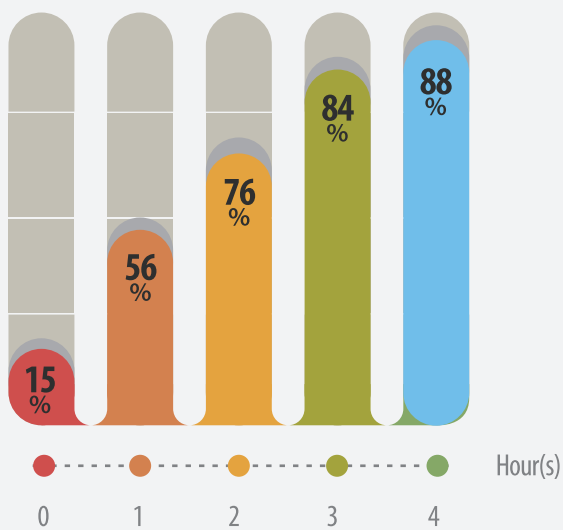

检测报告

产品名称: 空气净化器
型号规格: KJ30FE-NV
委托单位: 广东美的生活电器制造有限公司
检测类别: 委托检测

Percentage of Formaldehyde filtration

*Based on room size of 30m³

Test Report: 2014120-35-881020

检测报告

产品名称: 空气净化器
型号规格: KJ30FE-NV
委托单位: 广东美的生活电器制造有限公司
检测类别: 委托检测

Slim design, multiple applications.

Living room

Office

Children's room

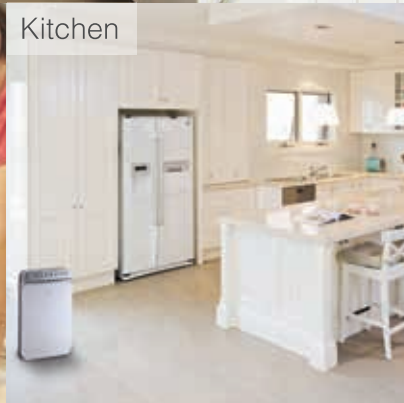

Bedroom

Seniors' room

Kitchen

Meeting room

> 99% Filtration of PM2.5 Pollutants

PM2.5 causes about 3% of mortality from cardiopulmonary disease, about 5% of mortality from cancer of the trachea, bronchus, and lung, and about 1% of mortality from acute respiratory infections in children under 5 yr, worldwide.

- World Health Organization

PM2.5 leads heart attacks and other cardiovascular problems.

- Journal of the American Medical Association

Long term exposure to ambient air pollution is linked with incidence of coronary events.

- British Medical Journal

Ionizer

Anions improve your health by stimulating blood circulation, improve lung function and effectively preventing respiratory passage illnesses such as asthma & pneumonia. These anions deactivate harmful airborne chemical vapours & dust particles thus improving your health.

Formaldehyde is classified as a human carcinogen(cancer causing). Short-term exposure to formaldehyde can be fatal. Long-term exposure to low levels of formaldehyde may cause respiratory difficulty, eczema, and sensitization.

- USA Occupational Safety & Administration

Auto Sensor

Fan speed automatically adjusts according to the dust and particle concentration in the air.

Dust and particle concentration light indicator:

SPECIFICATION

Recommended Room Size	28m ²	
Clean Air Delivery Rate(CADR)	±300m ³ /h	
Filter	Pre-filter	✓
	Carbon filter	✓
	Formaldehyde filter	✓
	HEPA filter	✓
Sensor	Auto	
Noise (Max)	60 dB(A)	
Display	LED	
Control	Touch	
Dimension (W*H*D)	350*599*160 mm	
Weight (Net)	6.5kg	
Weight (Gross)	8.5kg
