## CONTROL PANEL

### One Touch Wash

The washing machine handles your entire wash process automatically with just one touch of a button, saving you precious time and energy to do the things you love.

Using advanced algorithms, the washing machine calculates and determines the water level, wash type, number of rinse and spin duration independently.

# WATER MAGIC CUBE

Magic Technology Anti-wrap

1

## Surf Current

Effectively improves washing results by moving the clothings in a up-and-downs motion.

2

## Rotating Current

Untangles the clothings by lifting them from the bottom of the drum and dispersing them in all directions.

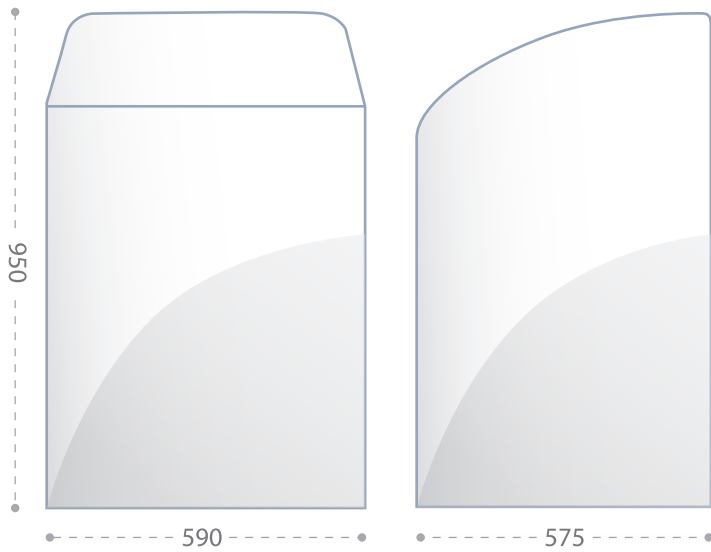

3

## Jet Spray Current

Promotes even and uniform washing results for all clothings within the drum.

## SPECIFICATIONS

<b>Power &amp; Capacity</b>	Standard Power	230V50HZ
	Singapore sell capacity(kg)	8.6
	Max water level (ltr.)	65
	Input power(watts)	500
	Volume(L) of inner tub	59.5
<b>Material</b>	Type of water level selector	Electronic
	Control panel	ABS
	Top lid	ABS
	Pulsator	PP
	Inner tub	STS
<b>Appearance</b>	Cabinet	Zinc-coated steel
	Digital display	LED
	Delay start	1~48
	Water level selection	6
	Cycle status lights	√
<b>Programs &amp; Features</b>	Number of program	6
	Tub cleaning	√
	Fuzzy	√
	Memory of power interrupt	√
	Favorite cycle	√
	3D waterfall	√
	Pulsator type	Water magic cube Pulsator
<b>Safety</b>	Magic filter	√
	Child lock	√
	Error alarm	√
	Auto unbalancing detection	√
	Auto-power off	√
<b>Noise(dB)</b>	Closed rat-proof base	√
	Wash	<72dB
<b>Dimensions</b>	Spin	<72dB
	Net dimensions(mm)	575*590*950
	Packaged dimensions(mm)	630*645*1010
<b>Weight</b>	Net	40
	Gross	45
